Great Soldier's Warning Against War

One of the gravest errors some pacifists make, says Toronto Saturday Night, is to suppose that all soldiers of military ability favor war. This is far from being true and the fact is illustrated by the great British general, Field Marshal Sir William Robertson, who has on many occasions raised his voice against war as an institution for the settlement of international disputes.

Quite recently he has spoken again, pointing out that the desire to avoid another war is common to most countries. It would be strange if it were not so, he says, inasmuch as the last war cost the world ten million lives or double the number lost in all wars of the preceding 120 years put together. It also cost not less than \$250,000,000,000, a sum that the world mind is hardly competent to conceive, to say nothing of an incalculable total of distress, sorrow and injury. Its failure as a solution of international disputes is demonstrable from the fact that it left behind grievances and resentments that can not be eradicated within the lifetime of most adults now living.

Yet though war is condemned by the intelligent men of all the nations who twenty years ago thought of it lightly as an inevitable future development, not devoid of possible advantages, preparations go on much as they did prior to 1914. Sir William Robertson is genuinely alarmed over the tendency to increasing competition in armaments. All the great powers, with two exceptions to note, the exception of Great Britain, are today spending more money on armed forces than they spent five years ago. Even with a reduced scale of expenditure Great Britain is practically compelled to spend \$1,275,000,000, irrespective of the contributions of India and other parts of the Empire, from the sheer necessity of fulfilling her military responsibilities in various parts of the world and protecting sea communications. France and Italy today have approximately as many men under arms as in 1914. Germany is complaining of her defenceless position, and if armaments are piled up by her neighbors, must some day be given permission to arm also. Many smaller nations of Europe are on a military footing and maintaining a threatening attitude toward each other. The United States feels that future security demands a vast additional naval expenditure.

What does all this madness portend? Peace is a game which all must play if it is to be maintained. Let us hope that the craze for armament falls of its own weight before the nations get at each other's throats again. The only vestige of a silver lining lies in the fact that machinery for the isolation and prevention of wars now exists, a factor never previously known in the world's history; but it is plain that the miracle which will convert the human mass from madness to sanity cannot be performed with a single gesture.

And Have a Clear Skin

Gently anoint the affected part with Cuticura Ointment. Wash off in five minutes with Cuticura Soap and hot water and continue bathing for some minutes. Pimples, eczema, rashes, and irritations are quickly relieved and healed by this treatment. Cuticura Talcum is fragrant and refreshing, an ideal toilet powder.

What Britain Has Done

Has Led the World in Disarmament Says Stanley Baldwin

"Years ago seamen sailed from Plymouth to discover a new world. We are going to rediscover a new moral world, which is a very much harder task," said Premier Stanley Baldwin, speaking at Plymouth, during his campaign tour of western England.

"We have led the way to disarmament," the premier said. "The fleet today is half the size it was in 1913. That is practical disarmament and no nation in the world can come any where near that yet there are Englishmen who say we are lagging behind."

"My hope is that the new government will be able to conclude an agreement with the United States which will lift the whole problem of disarmament to a new plane of action and not talk."

HOUSEHOLD CARES

Fall Heavily On the Woman

Who Is Run Down—Thin

Blood the Trouble

To the woman who has her housework to do and her family to attend to, illness is always a calamity. Many a woman keeps on with her household duties when she is feeling ready to drop. Her head aches, she may be breathless at the least exertion, she has little relish for food and always feels tired and nervous. The trouble is poor blood—thin, watery blood, and she badly needs the health help that only Dr. Williams' Pink Pills can give her. The rich red blood which comes through the use of these pills promptly restores aemic suffering to good health. Among the thousands who have found new health through the use of this medicine is Mrs. John W. Macdonald, Carleton Place, Ont., who says: "I can most strongly recommend Dr. Williams' Pink Pills. I was so run down in health that I was unable to do my housework alone. My husband thought I would never get better, as I had tried different kinds of medicine, which benefited me but I was advised to try Dr. Williams' Pink Pills, which I did, and to my joy I found they were just the thing I needed. I took six boxes of the pills and found myself restored to my old-time good health."

Try Dr. Williams' Pink Pills for anaemia, rheumatism, neuralgia, nervousness. Take them as a tonic if you are not the best physical condition and cultivate resistance that will keep you well and strong. Get a box from the nearest drug store and begin this treatment now. If you can get the pills by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Tea Of Old England

For some reason Great Britain alone among Western nations has popularized the use of tea. It has become the national beverage. The "beer of old England" has given place to the "tea of old England," and in its sentimental associations a "cup of tea" can vie with a "mug of ale." It is not too much to say that the British fought the war on tea.

It will relieve a cold—Colds are the commonest ailments of mankind, and if neglected may lead to serious conditions. Dr. Thomas' Electric Oil will relieve the bronchial passages of inflammation speedily and thoroughly and will strengthen them against subsequent attack. And he it eases the inflammation it will usually stop the cough because it allays the irritation in the throat. Try it and prove it.

Only Two Members Left

Marshal Joffre and Count Togo Wear Order Of Merit

The recent death of Marshal Foch, winner of "Lionel-Lion" in the London Daily Chronicle, leaves only one soldier entitled to wear the Order of Merit—his fellow-countryman, Marshal Joffre. The only other foreign member of this Order is the veteran Count Togo of Japan. At present there is no British soldier wearing the Order of Merit. Marshal Foch's death, too, leaves only one foreign Field-Marshal in our army. This is King Albert, of the Belgians, upon whom his Majesty King George conferred this rank eight years ago.

Miller's Worm Powders are the medicine for children who are found suffering from the ravages of worms. They immediately alter the stomachic conditions under which the worms subsist and drive them from the system, and, at the same time, they are tonic in their effect upon the digestive organs, restoring them to healthful operation, and ensuring immunity from further disorders from such a cause.

Charting Swiss Glaciers

Ninety-two of the Swiss glaciers are being measured to see whether they advance or recede. A thin steel wire is fastened across the snout of the glacier attached to a dial on either side. At present fourteen are advancing and seventy-three receding.

C.N.R. Summer Schedules

Canadian National Announces Changes In The Schedules For Summer Months

"The Confederation," running on the Canadian National Railway between Toronto and Vancouver, by way of Winnipeg, Brandon, Regina, Saskatoon, Edmonton and Jasper, was again in operation on May 19, replacing "The National," which runs between Toronto and Winnipeg. The first westbound "Confederation" left Toronto on Sunday, May 19, and another set of equipment left Winnipeg on the same day. The westbound train will reach Edmonton daily at 10 a.m., leaving 20 minutes later, arriving at Jasper at 6:20 p.m., Mountain Time, and leaving at 5:40 Pacific Time, Eastbound, the train will reach Jasper at 6:40 a.m., Pacific Time, and leave at 8:05 a.m., Mountain Time, arriving at Edmonton at 3:20 p.m., and leaving at 3:40.

Other time table changes announced by the National system include: Calgary-Edmonton—Train 13, will leave Calgary at 8 a.m. instead of 7:50, effective May 20. It will connect at Camrose with train 25 from Big Valley, Stettler and other points. At Tofield with the Confederation for points east. Effective May 20, train 25 will leave Calgary at 7 a.m. instead of 7:30, also connecting at Camrose and at Tofield.

Edmonton-Alliance—Will leave at 4:50 p.m. instead of 4:55, effective May 21.

Hanna-Wardlaw—Will leave at 9:45 a.m. instead of 9 a.m., arriving at Wardlaw half an hour earlier; in effect May 21. In the opposite direction the train will leave Wardlaw at the usual time but will arrive at Hanna three quarters of an hour earlier.

Hanna-Wardlaw-Mirror—Will leave at 7 a.m. instead of 7:45, effective May 20, arriving at Warden at noon instead of 12:45, and at Mirror at 3:45 instead of 4:15.

Beach trains—will leave Edmonton for Alberta Beach and Lac Ste. Anne at 2 p.m., Saturdays, from June 29 to August 31 inclusive; at 6:30 p.m. Saturdays ("Moonlight") July 6 to August 17 inclusive; at 2 p.m., Wednesdays, July 2 to August 28 inclusive. Campers' specials will leave Edmonton for Vaburnam, Falls and Seba Beach, Saturdays at 1:30 p.m. from June 29 to August 31 inclusive.

WHEN a cold or exposure brings aches and pains that are always quick relief in Aspirin. It will make short work of that headache or any little pain. Just as effective in the more serious suffering from neuralgia, neuritis, rheumatism or lumbago. No ache or pain is ever too deep-seated for Aspirin tablets to relieve, and they don't affect the heart. All druggists, with proven directions for various uses which many people have found invaluable in the relief of pains and aches of many kinds.

Soviets Changing Policy

Will Proceed Along Different Lines Regarding Religious Practices

Removal of constitutional restrictions on religious practices is soon to be proposed to the Soviet congress. A. Bykoff, president of the Council of People's Commissars, told delegates to the congress they would soon be invited to vote on such an amendment to the constitution.

The decrees fighting religion had proved to bring harm as well as benefit, he said. President Bykoff added that congress would be called upon to ratify a constitutional amendment providing for separation of church and state, church and schools, and granting all citizens the right to religious practice as well as anti-religious propaganda.

It appeared from the speech of the president that the Soviet was not to abandon its attempts to discredit religions, but simply to proceed, removing the stimulus of persecution. The constitution set up on the establishment of Soviet socialist republics, forbade the practice of any religion.

CORNS

Relief in Two Minutes

Just a drop or two of Putnam's Corn Extractor, and the pain goes away. Relief is almost instantaneous. Removing corns with "PUTNAM'S" is so easy, so sure, so painless—thousands use this wonderful remedy and say it is the best. Don't suffer any longer, use Putnam's Corn Extractor, the one sure relief for sore corns. Sold at every drug store.

New De Luxe Train Equipment

Many Western Towns Honored by Lending Appellation To Luxurious Sleeping Cars

With a desire to honour some of the fast growing communities of Western Canada, the Canadian Pacific Railway is naming its new de luxe train equipment in honor of these communities. Twenty-nine new sleepers of the latest type are thus called, and are known as railway circles as the "R" series. They include eight sections, two compartments, a lavatory, a washroom, and the berth sections are equipped with semi-permanent partitions to insure greater privacy to passengers.

The new sleepers will make a great appeal to ladies, for they have a huge dressing room with plenty of space for accommodation as well as up-to-date toilet facilities. Brown is the dominant color scheme, carried out in tapestry upholstery, berth curtains and carpets. All the latest safety devices are embodied in them, and the new sleepers are achieved through a forced process through the roof.

The points honored in this manner by the Canadian Pacific are: Ravenscar, Revelstoke, Red Deer, Ruby Creek, Ruskin, Rutherford, Regina, Rosedale, Ross, Rosemary, Riverton, Robbinston, Rathwell, Rocanville, Rapid City, Rosedale, Rosemary, Redfield, Raymond, Remford, Repton, Regent, Renfrew, Redvers, Richmond, Rossport, Renfrew, Roseland.

These new sleepers will be moved on that train over Western Canadian Pacific lines, as part of a million dollar equipment which makes up each No. 7 and 8.

To Stimulate Sheep Raising

Plan Inaugurated in Manitoba To Assist Farmers

The proposal launched in Brandon during March by His Honor, Lieutenant-Governor James D. McGregor, for the stimulation of sheep-raising for the summer through arrangements made by the Post Office Department, adding settlements at Oxford, Gods and Island Lake to the growing chain of northern mail points of call. Mail will be delivered once a week with Norway House, at the northern end of Lake Winnipeg, as the distributing center.

New Appointment

The appointment is announced by W. D. Robb, vice-president of the Canadian National Railway, of E. A. W. Hitherto European publicity agent of the Canadian National system at London, England, to be director of radio for the system, with headquarters at Montreal, succeeding the late A. R. McEwan.

New Trade Commissioner

It is officially announced that a new trade commissioner office of the Department of Trade and Commerce has just been opened in Oslo, Norway, with E. H. Palmer as acting trade commissioner, the territory covered including Sweden, Denmark, and Finland as well as Norway.

The way of the transgressor remains similar to that of the pedestrian—Kington Whig-Standard.

Royal Yeast Cakes

STANDARD OF QUALITY FOR OVER 50 YEARS

MAKE BETTER HOME MADE BREAD

Harvest Kelp From Sea Floor

Weed Is Being Tested For Value As Cattle Fodder

Seaweed is now believed to be an extremely valuable food for cattle and other live stock, and now a Los Angeles inventor comes forward with a machine for gathering it from the bottom of the sea. His machine, which was recently demonstrated in California, is mounted on a scow. An endless belt of spiked crosspieces runs from the surface of the scow to the harbor bottom, where blades tear off the kelp. The weeds' catch upon the moving crosspieces and are raised to the scow, where they are piled up like hay to dry.

The kelp is then ground and fed to farm animals with their hay and grain. It may also be used as a fertilizer, and from it can be extracted large quantities of iodine and potash. Tests are now being made to determine its relative value as cattle fodder.

Cuts and Bruises Disappear—When suffering from cuts, scratches, bruises, sprains, sore throat or chest, and any similar ailment, use Dr. Thomas' Electric Oil. Its healing power is well-known in every section of the community. A bottle of Dr. Thomas' Electric Oil should be in every medicine chest ready for the emergencies that may always be anticipated.

Mail Service For North

Areas In Northern Manitoba To Be Brought Within Closer Touch Of Outside World

Dwellers in the remote areas of Northern Manitoba will be brought into closer touch with the "outside" world this summer through arrangements made by the Post Office Department, adding settlements at Oxford, Gods and Island Lake to the growing chain of northern mail points of call. Mail will be delivered once a week with Norway House, at the northern end of Lake Winnipeg, as the distributing center.

Was In Bed All Summer

"I have to work in the store and do my own housework, too, and I get nervous and run-down and was in bed nearly all summer. The least noise would make me nervous. I was told to take Lydia E. Pinkham's Vegetable Compound and I have taken seven bottles. It has made me stronger and put more color into my face. I am looking after my store and housework and my four children and I am getting along nicely now."

—Mrs. J. Malin, R. R. No. 5, Berens St. East, Hamilton, Ontario, Canada.

Lydia E. Pinkham's Vegetable Compound

Commercial Fertilizers Must Be Produced In Increasing Amount To Maintain Present Crop Yield

The astonishing computation is made that if the farmers of Canada were to entirely replace by chemical fertilizers the amount of plant food annually used it would entail a yearly expenditure of \$385,000,000. This figure, contained in a new report on "The Commercial Fertilizer Industry In Canada," prepared by the Natural Resources Intelligence Service of the Department of the Interior, at Ottawa, is not intended to create alarm but is merely informative. As a matter of fact the computation embraces the cultivated area of the Prairie Provinces where the soils are naturally very rich, and there is a division of opinion on the present need of fertilizers there. Without considering the three prairie provinces the fertilizer bill would nevertheless be very considerable amounting to over \$141,000,000.

The fact is stressed that such computations are theoretical and of no practical value except as pointing to the immense field open in time for the fertilizer industry in Canada. The aim of the report is stated to be to put before the Canadian public the latest view of experts in world economies that commercial fertilizers must be produced in ever increasing amount to maintain present yield and sustain a multiplying population and to show the amount of commercial fertilizer which Canada is using, might use, and may contribute to the world demand.

Contrasting with the value of the commercial fertilizer theoretically necessary to replace depletion the soil is the actual figure of \$5,904,453 expended in Canada for purchased fertilizers in 1927. Though depletion of the soil is going on year after year the annual consumption of fertilizer in Canada is not increasing rapidly as is shown by the expenditure of \$1,408,320 in 1918. It is held that there is a boundless field in Canada for the manufacture of commercial fertilizers but that to reach the full benefit of the growing market awaiting the industry the Canadian demand must be strengthened by education of the farmer and the rural schools, by practical demonstration of the value of fertilizers. Manufacturers, producers, and distributors need co-operation and the consolidation that other industries are finding necessary with a view to greater efficiency, uniform marketing and economy in production.

An interesting section of the 50-page mimeographed memorandum gives figures to show how the present low rate of yield of the larger crops compared with that in other countries might be profitably increased by the use of commercial fertilizer as advised by the Department of Agriculture. Prevailing tariffs and Dominion Acts regulating sale and manufacture of fertilizers are dealt with and a map indicates the location and names of producers of commercial fertilizers, and fertilizer materials, whether wholly or partly manufactured in Canada. Copies of the publication may be obtained free of charge from the director, Natural Resources Intelligence Service, Department of the Interior, Ottawa.

Brains To Spare

"We are given 10 times as much brain as we need. Very few persons use 50 per cent. of their brains, many but 10 per cent.," said Sir Arthur Keith, lecturing at the Royal College of Surgeons, London. He asserted that as a railroad bridge is constructed to carry a weight 10 times more than expected, so with the brain.

Traffic Policeman: "Say, do you know why I stopped you?"
Proud Father: "Oh, yes. You want to hear about the cute thing that baby said just before I left the house!"

"How is Antonio?"
"Very bad. Yesterday he had to sell his false teeth to get a bite to eat." Buen Humor, Madrid.

W. N. U. 1787

Real Wealth At Home

Canadian People Will Not Find Better Opportunities Elsewhere

In January, there were 4,164 persons who came to Canada as immigrants, and 4,427 persons left the country as emigrants.

Assuming that persons move from one country to another to improve their positions in life, one is reminded of an utterance of an English writer, William McFee. In his recently published life of Frohisher, Mr. McFee remarks that while the Elizabethan adventurers were seeking gold abroad, and while Frohisher was taking back to England useless rock from Arctic islands, the real wealth of Britain was in the coal about one mile below the estate which Sir Martin was able to purchase in his later years.

Canada is a real land of opportunity. But unfortunately some of her people continue to think that opportunities are better in other lands.

Winnipeg Newspaper Union

SMART TAILLEUR

Its tailored simplicity will appeal to good taste for general daytime wear, interpreted in silk crepe in naval dot pattern. The vivid plain silk crepe piping and stitching which emphasize its classic tailored lines, is what makes Style No. 481 so smart. It is easily made, the pattern for which can be had in sizes 16, 18, 20 years, 35, 38, 40 and 42 inches bust. It is fashionable in angora jersey, in chartreuse green, plain washable silk crepe in violet shade, red crepe, featherweight tweed in wood-violet tones in tiny check pattern, lipstick red crepe de chine, plaided pique, navy blue crepe marocain, grasshopper green georgette, crepe and blue-violet silk crepe. Pattern for this unusual model price 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

We suggest that when you send for this pattern, you enclose 10 cents additional for a copy of our Spring Fashion Magazine. It's just filled with delightful styles, including smart ensembles, and cute designs for the kiddies.

Passing Of Oratory

There is a tendency on the part of modern audiences to want facts and to dislike excessive verbiage such as the oldtime speaker indulged in. Times are changing and have changed, and while there should undoubtedly be some attention paid to teaching the average student to talk before his fellows, it is doubtful if a lot of this effort on oratory is really justified.

Timber Consumption For Lumber And Pulpwood Compared

Figures compiled by the Forest Service of the Department of the Interior, afford a striking evidence of the manner in which Canada's forests have in late years been subjected to a heavily increasing demand for raw materials.

The timber consumption in the manufacture of lumber has shown no

very pronounced upward trend in the last decade or so, but the advance of the pulpwood industry has been responsible for changing the whole aspect of forest utilization. Twenty years or so ago the yearly pulpwood cut expressed in terms of standing timber, was equivalent to hardly 20 per cent. of the annual lumber cut. Today the timber consumption for

The main significance of this trend lies in the fact that with these two timber-using industries both developed upon a huge scale, the Dominion now has a vastly increased stake in good forest management. Forest conservation today should have behind it an infinitely stronger commercial incentive and support than ever before.

Making the Farm Popular

Learning Scientific Methods Proves Fascinating To Students

Pessimistic views as to the future of Canadian agriculture should have been dispelled from the mind of anyone who attended the winding-up dinner given to the pupils of the short courses which have been held. The enthusiasm that was evident among all the students proved that education in scientific methods of farming can be as fascinating as any other type of learning, when it is carried out under teachers who love their work, and by boys and girls who are in a receptive mood. It is not hard to realize that the practical teaching which they receive at these courses is a good deal more attractive to the active minds of the young folks than is the laborious memorizing of "anno, anno, anno," or the struggle with a recalcitrant comic (hot comic) section.

Larks: "Does your wife like a pipe?"
Sparkes: "No, she doesn't smoke at all."

One kind of failure is the man who has never yet tried to accomplish anything.

Leaning Tower Dispute Still Rages

Old Discussion Comes Up Again Regarding The Tower Of Pisa

"Why does it lean?"—that old, old question reverberating around the tower at Pisa—is again the subject of violent debate in Italy, says the Italy-America Society. There used to be two schools of opinion: One held that the tower was intended to lean from the beginning—a quaint conceit of the architect's; the other maintained that a subsidence of earth inadvertently caused the tilt. A third school is now busy converting the other two. Here is what really happened. The original architect intended it to be straight. When partially built it began to lean. The builders then offset the leaning by continuing the construction at an angle to balance. All agree, however, that Pisa's tower is strikingly beautiful and safe.

It takes 1,500 men to hold an automobile together, but it only takes one to spread it all over the landscape.

Some people would have to work overtime if they practiced half of what they preached.

A HARD PAR 4

No. 8, Tekarra's Cut—430 yards, Par 4.

Many hopes for a fine score have been wrecked by hole No. 8 of the Jasper Park Lodge Golf Course, Jasper National Park, Alberta, over which the Canadian amateur championship of the R.C.G.A. will be played from August 19th to 24th this summer. It is a dog-leg with a high knoll to be negotiated before the second shot can be placed on a sloping green that is lightning fast and guarded by a deep grass covered ditch. The contour of this green is such that an error of a fraction of an inch in putting means disaster.

Co-incidental with the Canadian Amateur, the Western Canada Amateur will be played over the Jasper Park Lodge Course, and this will provide plenty of competition for those whose high handicaps automatically keep them out of the Dominion event.

The upper photograph shows the fairway just below the elevated tee. Below is a sketch to scale showing the hole in detail. Play in the tournament will take place from No. 1 tee.

Saskatchewan Wheat Pool Conducting a Survey Of Wheat Grown In Province

Enough Business For All

Hudson Bay Route Will Not Affect Eastern Or Western Ports

Vancouver is rapidly growing as a grain port. Last year there was handled through the British Columbia metropolis 80,000,000 bushels, and this year, before the season closes, the 100,000,000-bushel mark will be passed. In 1909 the Government built a grain elevator in Vancouver. The politicians were laughed at and it was the butt of paragraphs. For five or six years it stood idle. In 1914 the Panama Canal was opened and the Government shipped an experimental shipment of grain via Vancouver and the Panama Canal to Europe. It proved a success. Since then the shipment of grain via Vancouver has steadily increased until this year it will top the 100,000,000-bushel mark. Now all of Alberta's grain seeks the markets of the world via Vancouver and Prince Rupert. The outlook is that all of the crop of the Peace River country will be shipped through British Columbia ports.

Yet, despite this huge flow via Western ports, the Eastern Atlantic harbors have all the grain they can handle. The Western crop is so increasing in size that there is business enough for all. Even if the Hudson Bay route proves feasible for shipping of grain to Europe, there is no need of either Atlantic or Pacific ports worrying. The more outlets to the markets of the world the better for the world's granary.

Depends On The People

Churches In Russia Closed Only When Majority Favors Change

Five hundred and thirty-two places of public worship were closed in the Soviet Union in 1928. They were converted into clubs, public schools, boarding houses, libraries and reading rooms, amusements, hospitals, cultural centres, or museums.

The hundred and fifty-three more places are marked for similar conversion this year, but there will be plenty left for religious purposes. A recent survey showed that there were some 50,000 churches in all of Russia.

The places of worship are closed to religious purposes only when a majority of the local population favors the change. A vote is taken if the initiative comes from local authorities. The 1928 list included 354 orthodox churches and 38 monasteries; 52 synagogues, 28 mosques, and 45 buildings belonging to various sects.

Waging War Against Gophers

Bounty Offered By Alberta Department Of Agriculture

Cash prizes ranging from \$1 to \$200 will be paid by the Alberta Department of Agriculture for gopher tails and feet and eggs of crows and magpies taken in Alberta on or before November 1. A special feature has been added to the bounties this year, also for gophers and crows and magpies taken early in the season, and on or before June 30. Feet of crows or magpies will be credited with five points each; eggs of crows or magpies will be credited with five points each and tails of gophers will be credited with three points each prior to this date.

Oil From Bituminous Sand

Alberta Government Will Undertake A New Experiment

The Alberta Government intends to separate oil from a quantity of bituminous sand and to turn over to commercial institutions the oil produced in order that tests may be made, also to test the oil extracted in road construction projects. There are also surveys planned under Dr. Wyatt, a water survey in charge of Dr. Rutherford and a Pre-Cambrian survey with Dr. Cameron in charge.

Need Packing Plant For Saskatoon

The Saskatoon Board of Trade is moving to develop the livestock industry in the region to the point of being able to support a packing plant. Commissioner J. H. Holmes recently pointed to the large increase in stock shipments from the city as significant of the growing need and necessity for a packing plant.

When bridge work is mentioned now you have to wait and see if it's teeth, cards, or viaducts.

The Saskatchewan Wheat Pool is conducting a survey of the varieties of wheat grown in this province. This work has been undertaken in conjunction with the provincial cereal committee, which was constituted in the spring of 1928 at the request of the pool, to bring about the desired uniformity of recommendations by agricultural authorities.

A questionnaire was sent out to 6,000 members of wheat pool committees. Approximately 2,500 replies have been received. Among the questions asked were the following: "What variety of wheat do you grow? Why that variety? What other varieties are grown in your district? Why are they grown? What variety is showing the most rapid increase?"

The replies are now being tabulated. The wheat pool has had the cooperation of the university, the provincial department of agriculture and the Dominion experimental farms.

Another piece of work has been undertaken by the Manitoba and Saskatchewan pools in co-operation with the Western Canadian Society of Agronomy in determining the extent of admixture of varieties and where such mixing takes place.

Simultaneously this year, in Saskatchewan and Manitoba, under the direction of the interprovincial committee of the Western Canadian Society of Agronomy, the pools have collected samples of wheat; (1) as shown by farmers, (2) as delivered by farmers to country elevators, (3) as delivered by railroads at terminal elevators, (4) as loaded into lake vessels by terminal elevators, and (5) as delivered by ocean vessels to British markets.

The samples thus collected are being grown by the experimental institutions in the provinces along with pure samples of the wheat varieties grown to any considerable extent in western Canada. Milling and baking tests will be made from these pure samples and compared with similar tests made from typical mixtures of varieties as found in the various classes of wheat grown on experimental farms from the samples collected.

It is hoped by this work to arrive at an answer to the question as to who is responsible for the mixture of varieties which takes place between pure seed and the old country miller, and in what manner such mixture affects the quality of the flour.

Vancouver Airplane Factory

New Concern Will Commence Operations At Coast City

Establishment of Vancouver's first aeroplane factory will be undertaken at once following the merger of Hoffer-Beeching Shipyards Limited with the Boeing Aeroplane Company of Seattle, it is announced by Henry Hoffer, President of the British Columbia concern. The new company will be known as Boeing Aircraft Limited, of Canada. It will be a Canadian concern, using Canadian labor and material, the engines being manufactured in Montreal.

Knew That One

Earl Beatty, of Julietland fame, tells this: Two old-time sailors detailed for special duty away from their ship were making out a list of rations. "Two pounds semolina," sang out Jack to his mate who was doing the writing.

"Somer—somo—ere let's ave tapoca. 'Ow d'yer spell that?"
"Why, t-a-b-o—no, t-a-p-o-o-k. Well look, ere, put down rice."
"Right you are, matey!" said the one doing the writing. "Two pounds r-i-s-e."

Jim—Why did everyone cry during the death scene at the theatre today? They must have known that the actor wasn't dead.
Jake—That was just the reason.

"What are you playing there?"
"Heavens, I have been playing all the fly marks."—Lustige Kolner Zeitung, Cologne.

VIKING

Boxing enthusiasts should keep in mind that the big boxing programme that was to be staged here June 7th, will be held on June 21st. The ring is to be built on the fair grounds in front of the grand stand, with several rows of ringside seats available besides.

Tickets are on sale at the Viking drug store and all those who are to attend should get busy and procure their seats now. All grandstand and ringside seats are reserved.

Some real good preliminaries have been arranged. The main bout is a ten round bout between Curly Kid Archibald, of Irma, and Dave Dorwood, of Innisfree. These boys have both proven their worth in the ring, and it should be well worth your time, and admission price to see these boys in action.

Prices ranging from \$1.25 rush seats, to \$2.25 ringside and grand stand.

Don't miss this big boxing program which has been the talk of the country for some time.

The directors of the Viking Agricultural Society held an enthusiastic meeting last Saturday afternoon and made plans for the big sports day to be held under their auspices on Monday, July 1st. Sports days held in past years have proven very popular here and this year should be no exception. Some good committees have been appointed to arrange for various events and attractions, and they are urged to lose no time in getting down to work as the time is short.

Baseball will be one of the features and some fast neighboring teams are being signed up to appear here on the big day. A purse of \$130.00 has been hung up.

The footballers will also have an opportunity to show their wares. The prize money has been increased this year.

A strong committee has been appointed to arrange a series of horse races. Horse races are fast regaining the popularity they enjoyed some years ago in the smaller centres, and should have a good season this year.

Men's and ladies basketball games will be featured. Teams are being sought to enter the tournament.

The local Elks have undertaken to provide amusement and entertainment with some carnival features and attractions, that are now receiving consideration. More details next week.

The Viking Band wearing the colors of the Elks will furnish music during the day. They are practicing diligently and are in a position to please the crowds with a choice band of stirring music, and overture selections.

Arrangements for a grand ball are also under way.

Refreshment booths and eats are being provided for.

The lid of the local baseball season was officially pried off on Sunday afternoon when Holden was here to cross bats with the Viking team. Scheduled to arrive here at three o'clock the players did not show up until after five o'clock, but the game was proceeded with, nevertheless. From the start it was a walkaway for Viking, the final score being in the neighborhood of 12 to 2. High lights in the contest were home runs by Marker, Richardson and Barney Hurum. Kastor called the 'balls and strikes. Viking players were: Marker, Richardson, Jones, Hoskins, Laughlin, Horton, McAthey, B. Gray, Gravert.

Messrs. Metcalf and Collins, of Edmonton, were down last Wednesday and made arrangements to lease the Jensen Recreation Hall for a period of three months beginning the end of this month. They are both experienced musicians, Mr. Metcalf being a pianist and organist, and Mr. Collins a well known violinist. Both have played in the moving picture theatres in Edmonton, but with the advent of the "talkies," orchestras have been largely dispensed with. They stated they will bring some very good pictures to Viking, and also furnish music at every performance. They will also open a music studio and arrange for pupils. They should prove a valuable addition to our community.

Art Prudholme who knocked out Curly Kid Archibald at Wainwright, a couple of months ago, was himself counted out at Wainwright last Wednesday evening, by a gent named Kid Holland of Drumheller. Several from here saw the event and say they got their money's worth.

Wilkie, who pitched for the Viking Flks team last year, is now doing duty for the Castor team this year and is going strong. In a recent game with Botha which Botha won by the score of 1 to 0, Wilkie was the only man who connected with the slants of the opposing pitcher.

H. Miles, Frank Miles and family, moved up from San Diego, California, and visited with old time neighbors and friends over the week end. H. Miles formerly farmed northwest of town. In the party were also Mr. and Mrs. Ed. McLean, and Mr. and Mrs. Allen, of Edmonton.

Household Hints

A GARDEN OF HEALTH

There is ever so much health in a good garden. This is true in more ways than one. The things good to eat that grow in the garden, such as fresh vegetables and small fruits, give us health in good measure.

Even the garden flowers are a help to the sick; you know how glad sick people are to have them. They really help to give health because of the joy and pleasure they bring. Whatever gives happiness gives health, for health and happiness go together.

But it is not only from vegetables we gather and the flowers we pick that we can get health. We may get it from the garden itself, in the very growing of the flowers, fruits, and vegetables.

In the spading, raking, planting, hoeing, and other work which we do in the garden, we find the very best kind of exercise. And you know exercise, is one of the important things in making health. The best gymnasium in the world cannot give better all-round exercise for the muscles than you can get right in the garden. And besides the exercise, there is the big supply of fresh air and sunshine along with it.

As you stoop over and straighten up, bend this way and that way, twist about, work the arms and legs, and do the different movements that come with working in the garden, all the muscles are made to work. The blood is made to circulate freely through the whole body, washing out impurities and bringing new, fresh blood to every part. The exercise also makes you take deep breaths, and this gives you the benefit of a liberal supply of oxygen.

And as you work in the sunshine, with not much clothing on, you also get the benefit of the rays of sunshine. At first it may be a bit hard to dig and hoe. Your back and arms and legs may feel it. The muscles may get tired and sore. That is because these muscles have not been used in just this way. But soon you will be able to work without getting so tired. Of course you must not try to do things too hard for you to do.

When we are doing work that is going to give us back something for our labor, we have added pleasure. And this we get in doing garden work. Looking forward to the time when we can gather the vegetables and pick the fruit or flowers, makes the work lighter.

So get a little garden of your own. Work it, and watch the things grow. Get health for yourself while they are growing, and get more health from using them after they have grown.

Alberta Institute of Co-operation

Lethbridge Olds Vermilion

JUNE 24th - 29th, 1929

Arrangements have been completed for the holding of three separate institutes of co-operation in the Province, similar to the one which proved so successful at Edmonton last year.

The meetings will be addressed by speakers who are outstanding authorities on various phases of co-operation in many parts of the continent, and special attention will be paid to the problems in co-operation affecting Alberta farmers. The co-operative marketing of wheat, livestock, dairy products, and poultry and eggs, and the consumers' co-operative movement will be considered and discussed.

Special arrangements are being made for the junior section of the Institutes, and for the instruction and entertainment of the young people who will attend.

Plan to attend the Institute nearest your home, and in order to ensure accommodation, communicate at an early date with the registrar—

M. L. FRENG, F. S. GRISDALE, W. J. ELLIOTT,

LETHBRIDGE, ALTA. OLDS, ALTA. VERMILION, ALTA.

A TEASER

No. 9, Cleopatra—215 yards, Par 3.

The ninth hole of the Jasper Park Lodge Golf Course, Jasper National Park, Alberta, over which the amateur championship of the Royal Canadian Golf Association will be played August 10-24 this summer, is one of the trickiest in Canada. The championship tee (No. 1) is considerably elevated and the green, which is very fast, is also built up high. The trick, therefore, is to play a tee shot which will hold the green. Yawning traps surround the green to eat up the strokes of the golfer who fails to play this hole properly. Like its famous namesake, "Cleopatra" is likely to wreck a lot of reputations at Jasper in August.

Coincident with the Canadian Amateur the Western Canada Amateur will be played over the Jasper Park Lodge Course, and this will provide plenty of competition for those whose high handicaps automatically keep them out of the Dominion event.

The upper photograph was made from No. 1 tee. Below it is a plan to scale showing the hole in detail with the three tees plainly indicated. The figures below represent the yardages.

WORLD HAPPENINGS BRIEFLY TOLD

Dame, Emilie Charlotte de Harthe, better known as Lily Langtry, left \$237,225.

Canada is the only Dominion that recorded an increase in British immigration in 1928.

Without explanation of the delay, the post office has delivered to Clifford C. Gilbert of New Haven, Conn., a letter mailed October 15, 1912, in Hartford.

After an illness of many months, Senator Robert Watson, 76, pioneer of the prairies, and for years prominent in western political circles, died at the home of his daughter, Mrs. J. Hilton McGregor, Brandon, Man.

Word of the death of Peter Richter, engineer on the first train to enter what is now Vancouver, on May 25, 1887, was received by D. C. Colman, vice-president, Canadian Pacific Railway, Mr. Richter died at his home in Vancouver.

Harbor improvement bills passed by the House totalled \$10,000,000 for Montreal Harbor; \$10,000,000 for Vancouver Harbor; \$5,000,000 for Halifax Harbor; and \$2,000,000 each for the harbors of Three Rivers and Chibougamau.

The West Indies is considering establishing a trade commissioner in Canada. Sir Edward Lyden, chairman of the West Indies conference at Ottawa, Sir Edward is investigating trade possibilities in Canada.

Among the entrance scholarships awarded at Upper Canada College are: The Gordon Southern Number 1 (value \$500 a year for three years); Robert Kay (Gordon, Edmonton, Alta.) Number 2 (value \$500 a year for three years); Edgar Stanfield, Edmonton.

Alberta Has Surplus

Closes Fiscal Year With More Money Left Over Than Ever Before

Alberta closed the fiscal year ended March 31, with more money left over in the provincial treasury in excess of expenditures than ever before in the history of the province, \$1,817,871 being the exact amount, according to an announcement made by Provincial Treasurer Hon. R. G. Reid. The surplus for the previous fiscal period, ended March 31, 1928, was \$279,763, covering 15 months, because of the change of the fiscal year dates adopted last year.

The Board of Health

Strolling along the quay of New York harbor, an Irishman came across a wooden barricade placed around the enclosure where emigrants suspected of suffering from contagious diseases are isolated.

"What's this boarding for?" he enquired of a bystander.

"Oh," was the reply "that's to keep out fever and things like that, you know."

"Indeed," said Pat, "olive often heard of the board of health, but he jabbers, it's the first time ol've seen it!"

Corn disappear when treated with Holloway's Corn Remover without leaving a scar.

Production Of Asbestos

Canadian asbestos, which is of the chrysotile or serpentine variety, is practically all obtained from the Eastern Townships, Quebec.

Italy Has Ambitious Road Building Program

Fifty Thousand Men To Construct Motor Highways

Because Premier Benito Mussolini has ordered it, Italy soon is to embark on the most ambitious road building programme any modern European state has attempted—perhaps the largest since the famous road builders of ancient Rome took their art into Britain. Within five years every corner of the peninsula will be accessible to the motorist. In all 40,000 miles of new motor highways are to be constructed. Fifty thousand men are to be engaged in working out the programme.

THE RESPONSIBILITY OF EVERY MOTHER

The child in the home is a never-failing source of joy, but at the same time a never-failing responsibility to the mother. It is not infrequently happens that minor ailments of the child distress and puzzle her. She does not know just what to do, yet feels that not serious enough to warrant calling in the doctor. At just such times as these it is found that Baby's Own Tablets are the mothers greatest help and friend.

Most childhood ailments arise in the digestive tract, the bowels become clogged and the stomach sour. Baby's Own Tablets are a never-failing relief for this condition. They are a mild but thorough laxative and through their action on the stomach and bowels they banish constipation and indigestion; break up colic and simple fever; allow the pain accompanying the cutting of teeth and promote healthy sleeping. Concerning them Mrs. W. Jennings Mackay, Ont., writes: "I have used Baby's Own Tablets and think so highly of them that I would not be without them. Please send me your little booklet on the care of children."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

Record Of Earthquakes

On the average over 300 earthquakes a year, or roughly one a day, are registered on the seismographs at the Dominion Observatory, Ottawa. The majority of these, however, do not involve any serious disturbance anywhere, and comparatively few originate in Canada.

No Asthma Remedy Like It. Dr. D. Kellogg's Asthma Remedy is distinctly different from other so-called remedies. Were this not so it would not have obtained its great world-wide reputation. It is a remedy from ocean to ocean for its wonderful value. Kellogg's the foremost and best of all asthma remedies, stands upon a reputation founded in the hearts of thousands who have known its benefit.

"Doctor, what shall I take to cure kleptomania?" "Don't take anything."

Only those who have no worries can afford to look worried.

BRAVES CHILLY WATERS

One person who is not going to let lack of training stand in her way to victory at the forthcoming marathon swim at the Canadian National Exhibition, when swimmers from all over the world will compete, is Olive Gatterdam, who religiously takes her dip every day, rain or shine, in Lake Ontario. Miss Gatterdam started her training some time ago when the lake waters were just short of freezing temperature. The photograph here shows Miss Gatterdam all set for the plunge, with Fred Jackson, her trainer, taking the temperature of the water.

CANADIAN MINISTER TO FRANCE

Hon. Philippe Roy, Canadian minister to France, as he arrived on the S.S. Ile de France, at New York, to spend a vacation at his home in Quebec.

Four Hundred Years Ago

Luther's Catechism Is Still Being Used In Lutheran Schools

While text books change often and few studies today are a decade old, one yet in use can celebrate its four hundredth anniversary with the Lutheran World Congress, June 25 to July 31. "Luther's Catechism" was written four hundred years ago, and still is used in Lutheran schools. The Lutheran church is the largest Protestant church. Its membership is estimated from 75,000,000 to 80,000,000, mostly in Northern Europe and America. The three books translated into most languages in the world are: The Bible, in about 80 languages; "Luther's Catechism," in 137; "Pilgrim's Progress," in 107. The most translated hymn is Luther's "A Mighty Fortress."

How Bells Out Of Order

The noted bells of Bow Church in the City of London, the bells that chimed the old time "Turn again, Whittington," are not ringing. The bells are out of order and money for their repair not available.

Use Minard's for the rub down.

The more mistakes a man makes the easier it is for him to invent excuses.

A Magnificent Gift

Mr. W. H. Askew, Of Scotland, Donates Large Sum To Aid British Colonization In Canada

The Department of Colonization and Development of the Canadian Pacific Railway announces a magnificent gift on the part of Mr. W. H. Askew, of Ladykirk, Scotland, to the cause of British colonization in Canada. Mr. Askew who is a gentleman of means and well known in Scotland for his broad public spirit, has provided ten thousand dollars to enable suitable families from the border regions of England and Scotland to emigrate to Canada and engage in agricultural work.

Forty of these families are now on their way from Great Britain and their departure has received wide publicity in the British press on account of the original circumstances under which these families are being moved.

The fact that Mr. Askew has provided ten thousand dollars makes possible under the provisions of the Empire Settlement Act, an advance of a further ten thousand dollars for the forwarding of suitable British families to Canada. The Act in question authorizes the Secretary of State to co-operate with private organizations in formulating and carrying out schemes for affording joint assistance to suitable persons in Great Britain, who intend to settle in the dominions of His Majesty. It is quite possible, therefore, that as a result of Mr. Askew's decision to assist prospective British colonists in the manner mentioned, three hundred families may be enabled to come forward to Canada. The number depends on the precise amount advanced to each particular family.

At Mr. Askew's request the Department of Colonization and Development, Canadian Pacific Railway, has entered into an agreement with the Secretary of State for Dominion Affairs for the recruiting, placement in agricultural occupation and all general administrative work connected with the scheme.

The families which will arrive during the next week-end will be at once placed on arrival in Canada in the manner which has already been assigned; twenty-five families having been allocated to the Canada Colonization Association, and the remainder to the Department of Colonization and Development; others will occupy new cottages erected by the Colonization Construction Branch of the Canadian Pacific, and the remainder on farms prepared by the Canadian Pacific under the agreement made. It is felt with the Overseas Settlement Committee.

Asked for his personal comment on this new scheme, Colonel E. S. Dennis C.M.G., Chief Commissioner of the Department of Colonization and Development, said: "I have no hesitation, whatever, in saying that Mr. Askew's magnificent action is a most commendable and whole-hearted contribution to the movement of British colonists to Canada calls for special efforts on the part of all organizations and individuals who are in a position to speed up the important task in question. As is well known we have always concentrated our efforts on the movement of the largest possible number of British settlers to Canada, spending large sums in that connection, but the conditions which have existed in the last few years and the administrative difficulties, which seem to arise now and again, under the apparently necessary numerous regulations, which must be observed, results have been disappointing. The Askew scheme, however, as it is sure to be widely known in the future, marks a step forward in the progress of British colonization in Canada, and we are greatly pleased, of course, that Mr. Askew should have seen fit to ask us to join in this project, which is now eliciting much commendation in Great Britain, and will continue to reflect the greatest credit and satisfaction to its sponsor."

How To Dye An Old Rug

Successful Method That May Be Used In The Home

Old rugs may be dyed at home in a practical manner reads an article in the May issue of "Successful Farming."

"First of all, spread the rug out flat and scrub thoroughly clean with one can of rug soap and water. Let it stand for fifteen minutes and then spray well with cold water from the garden hose, or rinse with buckets of cold water. For a 9 x 12 rug use six packages of one of the standard, well known brands of dye designated for silk and wool mixtures. Set the color with a half pint of vinegar, full strength. The rug will take the dye nicely while still damp but the drying takes some time."

Foebish, pale, restless, and sickly children owe their condition to worms. Mother Graves' Worm Expeller will relieve them and restore health.

A Logical Conclusion

Father—"Jimmy, why did you lick the little Jones boy?" Jimmy—"You told me to."

Father—"I told you so! Why, my son, what do you mean?" Jimmy—"Didn't you tell me the other day that it was more blessed to give than to receive?"

Father—"Yes, but—"

Jimmy—"Well, I had to give him a lickin' or receive one."

Noted British Statesman

Wife Of Mr. Amery Is Native Of Whitby, Ont.

"The better half of Mr. Amery is Canadian. He married the charming Florence Greenwood, of Whitby, Ont., whose brother is Sir Hamar Greenwood, also a member of the British Parliament and the last man to fill the office of chief secretary for Ireland."

Mr. Amery is short in stature but broad in shoulder. He has thoroughly developed his muscle as well as his brain. He took a "double first" and became a don at Oxford. For a spell he was an editorial writer on "The Times" and special correspondent for the paper in South Africa.

He sits in Parliament for one of the Birmingham divisions and is a whole-hearted protectionist. It is generally asserted to have been entirely due to him that in 1923 Mr. Baldwin appealed to the country for a mandate to introduce protection—a mandate which was emphatically refused.

As first lord of the admiralty Mr. Amery was responsible for the Singapore naval base scheme. When he was appointed secretary for the colonies and dominion affairs—this double name was adopted about a year after his appointment—he reached an office entirely after his own heart, though some of the government newspapers he regarded the appointment with misgiving.

Early last year he concluded a six months' tour of the empire. One Conservative paper described him at the time as returning "more than satisfied with the result of his first-hand examination of Britain overseas;" another Conservative organ said he had covered 60,000 miles in a tour of space, adding it would have to guess how many miles of newspaper type he had covered in point of speech.

Carload Of Muskats

One Thousand Animals Shipped From Oak Lake To Germany

A carload of live muskrats bound for Hamburg, Germany, left Oak Lake at the end of April, via the Canadian Pacific Express, there being 1,000 animals in the shipment. They were trapped in the Oak Lake breeding grounds and shipped in boxes by Pura Limited, each box containing twelve pairs. This is believed to be a record shipment.

Heart Trouble Hands and Feet Numb and Cold

Mrs. Wm. Fowler, Auburn, Ont., writes: "Seventeen years ago I was troubled with my heart and nerves, so bad, at times, my hands would become numb and cold. I took doctor's medicine, for a while, but it did me little or no good. I happened to see

advertised and started taking them at once, and continued for some time, and since then I have had no return of my trouble."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

World's Highest Bridge

The new Grand Canyon Bridge on the Arizona Highway, is 485 feet in height, and therefore beats the hitherto unassailed record of the Victoria Falls Bridge with its 425 feet from the river's bed.

WORLD HAPPENINGS BRIEFLY TOLD

Dame Emile Charlotte de Bathe, better known as Lily Langtry, left \$237,225.

Canada is the only Dominion that recorded an increase in British immigration in 1928.

Without explanation of the delay, the post office has delivered to Clifford C. Gilbert of New Haven, Conn., a letter mailed October 15, 1912, in Hartford.

After an illness of many months, Senator Robert Watson, 31, pioneer of the prairies, and for years prominent in western political circles, died at the home of his daughter, Mrs. J. Hinton McGregor, Brandon, Man.

Word of the death of Peter Richter, engineer on the first train to enter what is now Vancouver, on May 23, 1887, was received by D. C. Coleman, vice-president, Canadian Pacific Railway, Mr. Richter died at his home in Vancouver.

Harbor improvement bills, passed in the House totaled \$10,000,000 for Montreal Harbor; \$10,000,000 for Vancouver Harbor; \$5,000,000 for Halifax Harbor; and \$2,000,000 each for the harbors of Three Rivers and Chicoutimi.

The West Indies is considering establishing a trade commissioner in Canada. Sir Edward Lyden, chairman of the West Indies conference, stated at Ottawa, Sir Edward is investigating trade possibilities in Canada.

Among the entrance scholarships awarded at Upper Canada College, are: The Gordon Southam Number 1 (value \$600 a year for three years)—Robert Kay Gordon, Edmonton, Alta.; Number 3, value \$600 a year for three years, Edgar Stanfield, Edmonton.

Alberta Has Surplus

Closes Fiscal Year With More Money Left Over Than Ever Before

Alberta closed the fiscal year ended March 31, with more money left over in the provincial treasury in excess of expenditures than ever before in the history of the province. \$1,817,871 being the exact amount, according to an announcement made by Provincial Treasurer Hon. R. G. Reid. The surplus for the previous fiscal period, ended March 31, 1925, was \$279,763, covering 15 months, because of the change of the fiscal year dates adopted last year.

The Board of Health

Strolling along the quay of New York harbor, an Irishman came across a wooden barricade, placed around the enclosure where emigrants suspected of suffering from contagious diseases are isolated.

"What's this boarding for?" he enquired of a bystander.

"Oh," was the reply, "that's to keep out fever and things like that, you know."

"Indeed?" said Pat, "I've often heard of the board of health, but jabbers, it's the first time I've seen it!"

Corns disappear when treated with Holloway's Corn Remover without leaving a scar.

Production Of Asbestos

Canadian asbestos, which is of the chrysotile or serpentine variety, is practically all obtained from the Eastern Townships, Quebec.

Italy Has Ambitious Road Building Program

Fifty Thousand Men To Construct Motor Highways

Because Premier Benito Mussolini has ordered it, Italy soon is to embark on the most ambitious road building programme any modern European state has attempted—perhaps the largest since the famous road builders of ancient Rome took their art into Britain. Within five years every corner of the peninsula will be accessible to the motorist. In all 50,000 miles of new motor highways are to be constructed. Fifty thousand men are to be engaged in working out the programme.

THE RESPONSIBILITY OF EVERY MOTHER

The child in the home is a never-failing source of joy, but, at the same time, a never-failing responsibility to the mother. It is not infrequently because of the neglect of the child's diet and the mother's care that the child suffers from the doctor. At just such times as these it is found that Baby's Own Tablets are the mother's greatest help and friend.

Most childhood ailments arise in the digestive tract, the bowels become clogged and the stomach sour. Baby's Own Tablets are a never-failing relief for this condition. They are a mild but thorough laxative and through their action on the stomach and bowels they banish constipation and indigestion, break up colds and shingles, relieve the pain accompanying the cutting of teeth and promote healthful sleeping. Concerning them Mrs. W. Jennings, Mackay, Ont., writes: "I have used Baby's Own Tablets and think so highly of them that I would not be without them. Please send me your little booklet on the care of children." Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

Record Of Earthquakes
On the average, over 300 earthquakes a year, or roughly one a day, are registered on the seismographs at the Dominion Observatory, Ottawa. The majority of these, however, do not involve any serious disturbance anywhere, and comparatively few originate in Canada.

No Asthma Remedy Like It. Dr. J. D. Kellogg's Asthma Remedy is distinctly different from other so-called remedies. Were this not so it would not have achieved its great work of relief until known from ocean to ocean for its wonderful value. Kellogg's the foremost and best of all asthma remedies, stands upon a reputation founded in the hearts of thousands who have known its benefit.

"Doctor, what shall I take to cure kleptomania?"
"Don't take anything."

Only those who have no worries can afford to look worried.

BRAVES CHILLY WATERS

One person who is not going to let lack of training stand in her way to victory at the forthcoming marathon swim at the Canadian National Exhibition, when swimmers from all over the world will compete, is Olive Gatterdam, who religiously takes her dip every day, rain or shine, in Lake Ontario. Miss Gatterdam started her training some time ago when the lake waters were just short of freezing temperature. The photograph here shows Miss Gatterdam all set for the plunge, with Fred Jackson, her trainer, taking the temperature of the water.

CANADIAN MINISTER TO FRANCE

Hon. Philippe Roy, Canadian minister to France, as he arrived on the 18. He de France, at New York, to spend a vacation at his home in Quebec.

Four Hundred Years Ago

Luther's Catechism Is Still Being Used In Lutheran Schools

While text books change often and few studies today are a decade old, one yet in use can celebrate its four hundredth anniversary with the Lutheran World Congress, June 25 to July 31. "Luther's Catechism" was written four hundred years ago, and still is used in Lutheran schools. The Lutheran church is the largest Protestant church. Its membership is estimated from 75,000,000 to 80,000,000, mostly in Northern Europe and America. The three books translated into most languages in the world are The Bible, in about 80 languages; "Luther's Catechism," in 157; "Pilgrim's Progress," in 107. The most translated hymn is Luther's "A Mighty Fortress," in 150.

Box Balls Out Of Order

The note-bells of Bow Church in the City of London, the bells that chimed the all time "Turn again, Whittington," are not ringing. The bells are out of order and money for their repair not available.

Use Minard's For the rub down.

The more mistakes a man makes the easier it is for him to invent excuses.

A Munificent Gift

Mr. W. H. Askew, Of Scotland, Donates Large Sum To Aid British Colonization In Canada

The Department of Colonization and Development of the Canadian Pacific Railway announces a munificent gift on the part of Mr. W. H. Askew, of Ladykirk, Scotland, to the cause of British colonization in Canada. Mr. Askew who is a gentleman of means and well known in Scotland for his broad public spirit, has provided ten thousand dollars to enable suitable families from the border regions of England and Scotland to emigrate to Canada and engage in agricultural work.

Forty of these families are now on their way from Great Britain, and their departure has received wide publicity in the British press on account of the original circumstances under which these families are being moved.

The fact that Mr. Askew has provided ten thousand dollars makes possible, under the provisions of the Empire Settlement Act, an advance of a further ten thousand dollars for the forwarding of suitable British families to Canada. The Act in question authorizes the Secretary of State to co-operate with private organizations in formulating and carrying out schemes for affording joint assistance to suitable persons in Great Britain, who intend to settle in any of the Overseas Dominions. It is quite possible, therefore, that a result of Mr. Askew's decision to assist prospective British colonists in the manner mentioned, three hundred families may be enabled to come forward to Canada. The number depends on the precise amount advanced to each particular family.

At Mr. Askew's request the Department of Colonization and Development of the Canadian Pacific Railway has entered into an agreement with the Secretary of State for Dominion Affairs, for the recruiting, placement in agricultural occupation, and all general administrative work connected with the scheme.

The families which will arrive during the next week-end will be at once distributed on arrival in Canada in placement which has already been assigned. Twenty-five families having been allocated to the Canada Colonization Association, subsidiary of the Department of Colonization and Development; others will occupy new cottages erected by the Colonization Construction Branch of the Canadian Pacific Railway. The farms, now being prepared by the Canadian Pacific under the agreement made last fall with the Overseas Settlement Committee.

Asked for his personal comment on this new scheme, Colonel J. S. Dennis, C.M.G., Chief Clerk, in the Department of Colonization and Development, said: "I have no hesitations in describing him at the time as returning 'more than satisfied with the result of his first-hand examination of Britain overseas'; another Conservative organ said he had covered 50,000 miles in point of space, adding it would hate to guess how many miles of newspaper type he had covered in point of speech."

Main Street

Mrs. R. Martin of Viking has been visiting with Mrs. D. Glasgow.

Mr. R. Noble, manager of the Royal George Hotel, Edmonton, took in the sports at Irma Wednesday.

Irma Ladies Aid met at the home of Mrs. S. Johnson Thursday afternoon.

Mr. R. J. Tate was able to be driven to the Fair Grounds Wednesday to watch the ball games.

Robert Maguire won first in the boys' bicycle race and Morris Wright finished second on Wednesday.

Wire thieves have again made their appearance in the Irma district. Recently someone took the wire off over half a mile of fence on the N. W. of Section 28-45-8. This fence was only built last summer and as a lot of it was hidden by brush the thief evidently thought it might not be missed for some time.

Mrs. E. J. Armstrong, of Vancouver, dropped in Saturday to visit friends in the Irma district, leaving Monday night to continue her journey to Ontario, where she intends spending most of the summer. Mrs. Armstrong, had a very busy time in Irma while here and wishes to be remembered to any of her old friends who she was unable to see during her short stay.

Mr. Eric Larsen has arrived with his family from Aberdeen, Washington, to improve the half section he has purchased in Section 15-46-9-W4 north of Irma. Mr. Larsen was a resident of the Irma district some ten years ago when he moved to the state of Washington but like most of the old timers who cross the line he has returned to the land of sunshine and big crops.

KEEN INTEREST SHOWN IN TURKEY RAISING

Greatly increased interest in turkey raising as a profitable sideline to general farming operations is reported throughout the province. Still further expansion is anticipated judging from the number of inquiries received by the poultry branch of the Department of Agriculture for the recent publication "Turkey Breeding and Management" which is a free bulletin available for distribution.

Now is the time of the year to advertise for those stray horses and cattle. A small ad in this paper will help you.

KINSELLA

Two more families arrived here last week under the Hudson Bay Settlement scheme.

Messrs. Walter and Oscar Easton of Islay spent Sunday at R. Eaton's.

We understand that a horse buyer who was here last week shipped a car load of horses to Nova Scotia on Saturday.

Mr. G. Hipperson of Irma shipped a part of a car load of hogs last week.

Mr. Cooper shipped a car load of stock on Monday.

We understand that Mr. Boyd of Ryley has purchased the residence of Dr. Archibald in this place. Dr. Archibald now resides in Nova Scotia.

Mr. Carl Smogard has purchased a new Whippet Sedan.

The Ladies Aid are holding a Tea and Apron Sale in the basement of the church on Saturday afternoon, June 15th.

Mr. and Mrs. William Anderson were at Clark Manor Friday afternoon.

FINE TROPHY FOR CAMPAIGN AGAINST CROWS AND MAGPIES

Farmers, ranchers and other sportsmen, wishing to get pheasant eggs for hatching, and live pheasant chicks in connection with the stocking movement which is spreading rapidly throughout the province, have been able to secure supplies through the Calgary Fish and Game Association. The association operates without profit. It is actuated by the desire to help the stocking movement.

Those who are interested may secure information by communicating with the secretary of the Calgary Fish and Game Association, c/o The Calgary Herald.

The Alberta association and the local associations are also conducting a vigorous campaign against crows and magpies. The suggestion emanating from the Hanna Fish and Game Association that a trophy for competition between the thirty-five locals in the province be donated, resulted in a generous contribution by Mr. A. E. Cross, of Calgary, of a trophy for this purpose.

The regulations respecting the trophy will be announced later.

The Alberta Association is backing up the U.F.A. and Alberta government in the war against pests.
